

# SOCIAL WORK DESERVES RESPECT!

Dear parents, dear families,

We are all doing our best to promote child development. We all want the optimum conditions to ensure this. For us, this means recognition from employers of the social and educational services we provide. **That's why we'll be holding pay talks once again with local government employers on 25 February 2022. The aim is to obtain a fair wage and better overall working conditions.** These negotiations were due to take place in 2020 but were postponed due to the coronavirus pandemic. However, our issues – particularly the urgent need to recruit new and skilled workers – can no longer be put off.

Over the past few months, together we have overcome major challenges under difficult conditions and will continue to give our all with full commitment and plenty of enthusiasm. **We kindly ask you for your solidarity and support along this journey of convincing employers of our legitimate demands. We'd also like to ask for your understanding now in case we are unable to be there for you in our usual capacity during this conflict.** Together, we can ensure that children receive the best possible support and education in future!

**Zukunft  
nur mit uns!**
