THE SOCIAL WORK AND CHILDCARE PROFESSIONS DESERVE IT!

dbb

Dear Parents & Families,

Together, you and we do our best to safeguard and promote children's development – and we love doing it! And we all want the best possible conditions to achieve this. Unfortunately, however, current conditions are making the working lives of our dedicated professionals untenable. We, therefore, wish to improve our working conditions – also for the benefit of the children.

From 24 January 2025, collective bargaining negotiations will be held with federal and municipal employers. This involves an appropriate increase in our salaries, along with an improvement in general working conditions. With such improved conditions, we can find new employees to take over childcare more quickly. That's good for all of us!

We enjoy working for the children. At the same time, however, our pay and working conditions must also be fair. If we don't find new colleagues, the services in the daycare centres and the support provided by social workers will deteriorate.

Please understand that we will make our demands felt in the streets on individual days in the form of strikes and demonstrations, and that the usual services will then only be available to a limited extent.

We want to ensure that children continue to receive the best possible education and care in the future – together.
